(54) TUNING DEVICE AND REMOTE CONTROL TRANSMITTER

(57)Abstract:

PROBLEM TO BE SOLVED: To prevent a program viewed until then from being forgotten to be tuned again at the time of switching the program viewed at present to a different channel at the time of viewing a television program.

SOLUTION: A memory 5 for storing a channel at present is provided and certain fixed time is measured by a count-down timer 6 and a timer 9. By performing control by a system controller 4, by automatically tuning the stored channel again when the certain fixed time elapses after switching the channel, the originally viewed program is returned.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
